

Meseroll/Miserol/Meserole and Ellingham Families

The "Meseroll/Miserol/Meserole and Ellingham Families" Collection was donated by Brenda J. Moody and was formally accepted by the Genealogical Society of New Jersey on March 29, 2014. Zachary Goldfarb, an intern for the Genealogical Society of New Jersey, conducted processing in early September 2014. The collection contains several records, including census, marriage, birth, death, military, and other records composed by descendants of the families. When processing the collection, papers were removed from two binders and placed in acid-free folders while maintaining the original order. The folders were placed in small archive storage boxes.
